

ZERO

ARMADA

The Zero lineup features limited-edition, premium versions of select models. We created these skis to pay homage to the brand's most loyal and dedicated core consumers and retailers, the ones who have sought us out and been with us since the beginning.

ARV 116 JJ UL

RA0000046+

Bringing light to new heights, the new Armada ARV JJ UL floats like a butterfly and cuts like a butter knife for a definitive big mountain freestyle experience. The new ski is 25% lighter than the original JJ. With less weight through the tip and tail, the new ARV JJ UL utilizes our lightest Caruba woodcore to create a uniquely lightweight and smooth ride when the going gets deep. Powder hounds, this ski will move fast off the shelves so act fast and put this limited edition JJ on your feet.

FEATURES

ASPIRATION WITHOUT LIMITS. DESIGN WITHOUT CONSTRAINT. YOU HAVE FOUND ZERO

ARV 96 Ti

RA0000050+

For those that need a little extra mustard than the hot dogger crowd, the new Armada ARV 96 Ti is a hard-charging twin that's crafted to crush from first bell. Built in the same chassis as the ARV 96, this ski boasts two layers of full-length, full-width Titanal for supreme dampening and handling at speed for the confident skier that refuses to live life in slow motion.

AR8

RA0000058+

A dedicated tool of the trade, the AR8 is Torin Yater-Wallace's park and pipe ski of choice. Built with traditional camber, it also features a stiff tail for popping out of the halfpipe and stomping park landings. If it's good enough for Torin, it's good enough for us.

FEATURES

- AR75 Sidewall
- Pop-Lite Core
- AR Freestyle Rocker
- S7 Base
- 2.2 Impact Edge
